Energy performance certificate (EPC)		
40 Magherafelt Road Moneymore MAGHERAFELT BT45 7UR	Energy rating	Valid until: 25 October 2033 Certificate number: 9360-2523-2300-2497-6145
Property type	Detached house	
Total floor area	296 square metres	

Energy rating and score

This property's current energy rating is F. It has the potential to be D.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

Score	Energy rating	Current	Potential
92+	Α		
81-91	В		
69-80	С		
55-68	D		62 D
39-54	E		
21-38	F	25 F	
1-20		G	

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in Northern Ireland:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, no insulation	Very poor
Roof	Flat, no insulation (assumed)	Very poor
Window	Mostly double glazing	Average
Main heating	Boiler and radiators, oil	Average
Main heating control	Programmer, no room thermostat	Very poor
Hot water	From main system, no cylinder thermostat	Very poor
Lighting	Low energy lighting in 30% of fixed outlets	Average
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, wood logs	N/A

Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

· Biomass secondary heating

Primary energy use

The primary energy use for this property per year is 332 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

• Cavity fill is recommended

How this affects your energy bills

An average household would need to spend **£7,096 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £3,651 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Impact on the envi	ronment	This property produces	24.0 tonnes of CO2
This property's current en rating is F. It has the poter		This property's potential production	11.0 tonnes of CO2
Properties get a rating from (worst) on how much carb they produce each year. C environment.	on dioxide (CO2)	You could improve this pe emissions by making the This will help to protect th	suggested changes.
Carbon emissions		These ratings are based about average occupanc People living at the prope amounts of energy.	y and energy use.
An average household produces	6 tonnes of CO2	amounts of energy.	

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£777
2. Cavity wall insulation	£500 - £1,500	£709
3. Insulate hot water cylinder with 80 mm jacket	£15 - £30	£268
4. Low energy lighting	£140	£165
5. Heating controls (room thermostat and TRVs)	£350 - £450	£575
6. Flat roof or sloping ceiling insulation	£850 - £1,500	£931
7. Replacement glazing units	£1,000 - £1,400	£227
8. Floor insulation (solid floor)	£4,000 - £6,000	£280
9. Solar water heating	£4,000 - £6,000	£244
10. Solar photovoltaic panels	£3,500 - £5,500	£615

Step	Typical installation cost	Typical yearly saving

11. Wind turbine

£15,000 - £25,000

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Keith Warwick
Telephone	028 86762500
Email	keith@normandevlin.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/006006
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk
